

ColorSplash Support & Warranty

Creating an Experience to Transform Your Business

The ColorSplash Group is committed to bringing you the Best Service, Support, and Product Warranty in the industry. From installation to training, repair, and daily operational customer support, the ColorSplash Group's team of professionals has the experience and necessary know-how to help you with your business.

INSTALLATION

The ColorSplash Group is proud of their technical expertise that enable our installation teams to advise on either a self-install or installation by one of our qualified technicians. The choice is yours. This versatility is why many Bowling Center Owners have selected our trained professional installers to help with their installations.

TRAINING

The ColorSplash Group offers the industry one of the best product training programs to ensure your bowling center staff can proficiently operate, maintain, and troubleshoot the ColorSplash Equipment.

On-site training for system management and operation training can be arranged with the ColorSplash Staff. This staff training is performed at your center for maximum impact, convenience, and effectiveness.

TECHNICAL SUPPORT

The ColorSplash Group's Technical Support is your direct line to product experts, engineers, and quality control technicians. The ColorSplash Group has one of the most responsive and reliable customer support programs in the industry, which is added assurance that your ColorSplash products and systems represent the best investment value in the industry.

ELECTRONIC REPAIR

The ColorSplash Group's electronics repair service is second to none. Our qualified experienced electronic repair technicians will effectively repair products and return them to you in a timely manner with minimal or no interruption to your business.
